FACULTY APPOINTMENT ANNOUNCEMENT
Clinical Assistant or Associate Professor (academic professional track) in Dermatology

The Department of Small Animal Clinical Sciences, School of Veterinary Medicine & Biomedical Sciences (SVMBS), Texas A&M University invites applications for a full-time, academic professional track, clinical assistant or associate professor in dermatology on an 11-month appointment. This position has an anticipated start date in Spring 2023. Each applicant must have a DVM degree (or equivalent) and must be a diplomate of the American College of Veterinary Dermatology or eligible to sit for the exam to become board-certified. Applicants must be licensed or eligible for regular or special licenses to practice veterinary medicine in Texas.

The successful candidate will devote up to 65% (negotiable) of their time to instruction, consultation, and patient care in the Veterinary Medical Teaching Hospital (VMTH). The remaining time will be devoted to integrative classroom and laboratory teaching (15%), research and other scholarly activities (10%), and academic citizenship (10%). Clinical duties will be shared among a total of two board-certified dermatologists and a resident. The Dermatology Service evaluates both small and large animal cases. Clinical responsibilities will include primary medical management of cases, instruction of veterinary students, mentorship of interns and residents, and participation in after-hours dermatology-only emergency coverage. Active supervision of house officers and in-depth participation in resident training (including rounds, journal club, dermatopathology, and back-up support) is expected. Classroom and laboratory teaching responsibilities will include education of professional students in our integrated curriculum and opportunities to interface with graduate students across multiple disciplines. Additionally, the successful candidate is expected to engage in collaborative research that aligns with expertise in the department, college, and university. Teamwork and collaboration are highly valued at Texas A&M University, and candidates are expected to demonstrate institutional citizenship that may include service to committees, working groups, and professional organizations.

The VMTH has capable personnel and modern technology including but not limited to a telehealth video platform, video otoscopy, CO2 laser, 3-D printing, advanced imaging (3T MRI, 40-slice CT), tomotherapy, an active multidisciplinary interventional radiology service, and two in-house pharmacists with compounding capability. The successful candidate will have the opportunity to interact with over 60 faculty members in the Department of Small Animal Clinical Sciences and an active group of house officers that includes more than 50 rotating interns and residents in the other medical and surgical disciplines. Dermatopathologists are available within the SVMBS for skin biopsy consultation and are active in resident training.

Texas A&M University is the oldest public institution of higher education in Texas and one of the nation’s largest and most dynamic universities. More than 70,000 students are enrolled in the University’s 17 academic colleges and schools with over 10,000 pursuing graduate or professional degrees. Texas A&M University is a major research university with a growing international focus, and outstanding public and private support. The community of Bryan-College Station (BCS), population 250,000, is a growing and diverse college town with a wide variety of cultural and
recreational opportunities, excellent schools, and a relatively low cost of living. BCS is centered in the Texas Triangle, a megaregion consisting of the state’s five largest cities.

Interested candidates must submit: 1) a statement of career goals and professional interest, 2) curriculum vitae, and 3) names of three individuals who have been requested by the applicant to act as references to the search committee chair. Applications must be submitted online at https://apply.interfolio.com/109222. Applications will be reviewed as they are received and will be considered until the position has been filled. Inquiries may be directed to Dr. Adam Patterson (Chair, Search Committee) at (979) 845-2351 or apatterson@cvm.tamu.edu. Texas A&M University is a smoke-free workplace. Texas A&M University is committed to enriching the learning and working environment for all visitors, students, faculty, and staff by promoting a culture that embraces inclusion, diversity, equity, and accountability. Diverse perspectives, talents, and identities are vital to accomplishing our mission and living our core values.
