

## **SUBMIT A CASE OF THE MONTH**

The case of the month is an interactive rubric that consists of a brief introductory paragraph about the patient followed by one multiple choice question with five possible answers. After the reader chooses one of the possible answers, the author provides the reader with a detailed case summary highlighting the right answer.

Possible questions include:

- Which of the following is the best diagnosis?
- Name the disease
- Which of the following is most likely to confirm the diagnosis?
- Which of the following is the most likely etiology?

General requirements: All cases should be submitted via email to [chiara.brachelente@unipg.it](mailto:chiara.brachelente@unipg.it). The case text must be delivered in Microsoft Word format with all sections clearly labeled. Images should be submitted separate in jpeg format to support the text. Reference to the images should be placed in the text to ensure proper placement. Image filenames should be referenced with Arabic numerals corresponding to the text references. Images should not be embedded within the text.

Title: Include signalment and brief description of the lesions.

Case Summary should include:

- Signalment
- Clinical history
- Histopathologic description
- Morphologic diagnosis
- Comments
- References
- Contributor
